

Negative Air Machine
Airborne Contaminant Purifier

Model: QuAir 1200B

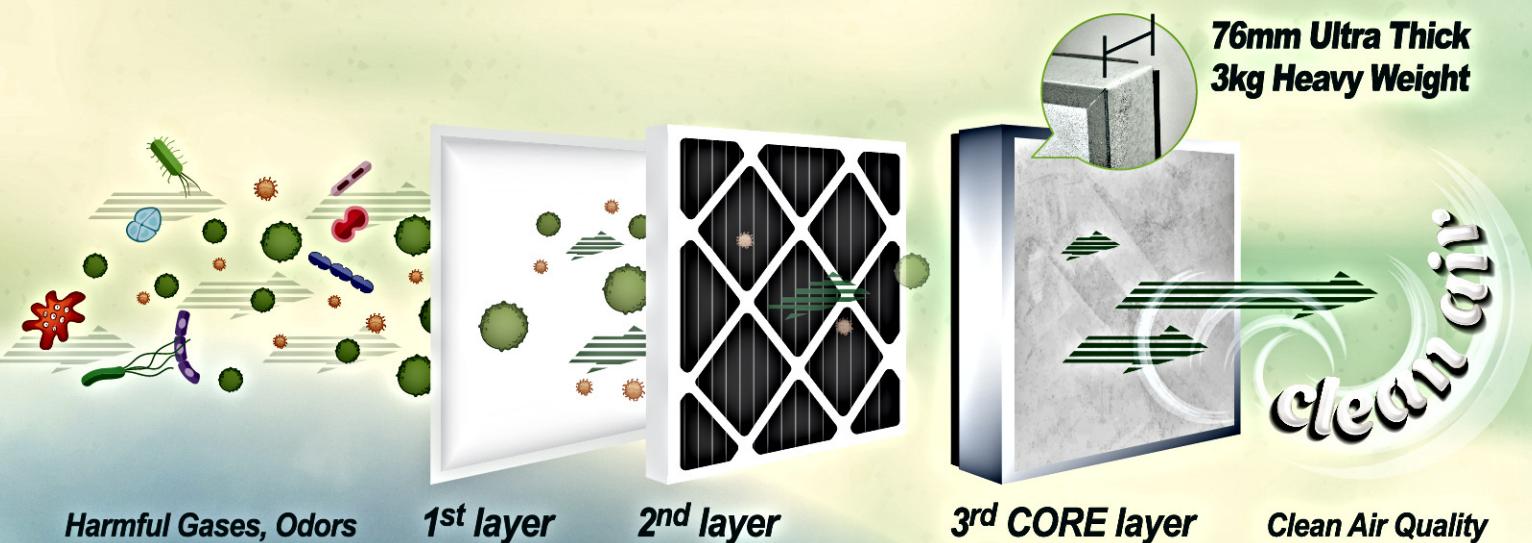

Removes **ORGANIC ODORS** and **HARMFUL GASES**
Prevents Cross Contamination by **Odors**

3 layers filtration system

1st layer : Two-ply pre-filter captures the bulk of the dust and debris.

2nd layer : Pleated activated carbon filter for preliminary odor and harmful gases control.

3rd layer : **CORE DUAC** (Dual Activation) honeycomb filter which was developed with a high quality Coconut Activated Carbon base and 6 organic odor absorbing ingredients to neutralize completely any organic smell and odors. It is specifically engineered to absorb harmful gases such as formaldehyde, VOC, etc. ...

Harmful Gases, Odors
